American Journal of Physiology: Heart and Circulatory Physiology

No. 1. JANUARY 1989

Synergism of intraventricular NaCl infusion and subpressor angiotensins in rats
K. Katahira, H. Mikami, T. Ogihara, K. Kohara, A. Otsuka, Y. Kumahara, and M. C. Khosla H1

Ventricular function and fatty acid metabolism in neonatal piglet heart
R. J. Ascuitto, N. T. Ross-Ascuitto, V. Chen, and S. E. Downing H9

Thoracic duct lymph flow and its measurement in chronically catheterized sheep fetus
R. A. Brace H16

Ischemia-induced and reperfusion-induced arrhythmias: importance of heart rate
M. Bernier, M. J. Curtis, and D. J. Hearse H21

A rate-sensitive component to the myogenic response is absent from bat wing arterioles
M. J. Davis and P. J. Sikes H32

Characterization of adenosine receptors in human pulmonary arteries
D. G. McCormack, B. Clarke, and P. J. Barnes H41

Electrical and mechanical responses of rat saphenous vein to short-term pressure load
E. Monos, S. J. Contney, A. W. Cowley, Jr., and W. J. Stekiel H47

Single-beat evaluation of left ventricular inotropic state in conscious dogs
E. C. Lascano, J. A. Negroni, J. G. Barra, A. J. Crottogini, and R. H. Pichel H56

Alterations of coronary blood flow and reserve with aging in Fischer 344 rats
R. Hachamovitch, P. Wicker, J. M. Capasso, and P. Anversa H66

Role of acetylcholine in induction of repetitive activity in human atrial fibers
Z.-Y. Hou, C.-I. Lin, M. Vassalle, B. N. Chiang, and K.-K. Cheng H74

Shunting of leukocytes in rabbit tenuissimus muscle
K. Ley, J.-U. Meyer, M. Intaglietta, and K.-E. Arfors H85

Regional adrenal blood flow during hypoxia in anesthetized, ventilated dogs
M. K. Nishijima, M. J. Breslow, H. Raff, and R. J. Traystman H94

Pressor responses to vasopressin in pigs and sheep with DOCA hypertension
W. D. Ling, D. P. Brooks, J. T. Crofton, L. Share, and D. F. Bohr H101

Sympathetic outflow to resting muscles during static handgrip and postcontraction muscle ischemia
B. G. Wallin, R. G. Victor, and A. L. Mark H105

Heart rate and blood pressure changes during sleep-waking cycles and cataplexy in narcoleptic dogs
J. M. Siegel, K. S. Tomaszewski, H. Fahringer, G. Cave, T. Kilduff, and W. C. Dement H111

Role of prostanoids in cerebrovascular responses during seizures in piglets
D. W. Busija and C. W. Leffler H120

Microvascular rarefaction and tissue vascular resistance in hypertension
A. S. Greene, P. J. Tonellato, J. Lui, J. H. Lombard, and A. W. Cowley, Jr. H126

Modulation of cardiac autonomic activity during and immediately after exercise
Y. Arai, J. P. Saul, P. Albrecht, L. H. Hartley, L. S. Lilly, R. J. Cohen, and W. S. Colucci H132

Transfer function analysis of autonomic regulation. I. Canine atrial rat response
R. D. Berger, J. P. Saul, and R. J. Cohen H142

Transfer function analysis of autonomic regulation. II. Respiratory sinus arrhythmia
J. P. Saul, R. D. Berger, M. H. Chen, and R. J. Cohen H153

Regional venous outflow, blood volume, and sympathetic nerve activity during severe hypoxia
S. Hoka, Z. J. Bosnjak, H. Arimura, and J. P. Kampine H162

Effects of hemodilution on gastric and intestinal oxygenation
J. W. Kiel, G. L. Riedel, and A. P. Shepherd H171

Developmental regulation of cardiac calcium channels and contractile sensitivity to $[Ca]_o$
J. D. Marsh and P. D. Allen H179

Filtration coefficient in cat hindlimb using protein concentration changes
P. D. Watson and M. B. Wolf H186

Magnesium and reperfusion of ischemic rat heart as assessed by ^{31}P-NMR
P. C. Borchgrevink, A. S. Bergan, O. E. Bakøy, and P. Jynge H195

Circulatory effects of PAF-acether in newborn piglets
L. M. Bradley, R. E. Goldstein, G. Feuerstein, and J. F. Czaja H205

Attenuated microvascular alterations in coarctation hypertension
D. L. Stacy and R. L. Prewitt H213

Influence of nonuniformity on rate of left ventricular pressure fall in the dog
W. Y. W. Lew and C. M. Rasmussen H222

Adrenergic receptors of adrenal medullary vasculature
D. A. Jordan, M. J. Breslow, K. L. Kubos, and R. J. Traystman H233

Vascular development in chick embryos: a possible role for adenosine
T. H. Adair, J.-P. Montani, D. M. Strick, and A. C. Guyton H240

Oxygen exchange in the microcirculation of hamster retractor muscle
D. P. Swain and R. N. Pittman H247

Na^+-dependent activation of Na^+-K^+ pump in human myocardium during recovery from acidosis
H. H. Rasmussen, E. J. Cragoe, Jr., and R. E. Ten Eick H256

Relation between phosphate metabolites and oxygen consumption of heart in vivo
L. A. Katz, J. A. Swain, M. A. Portman, and R. S. Balaban H265

β-Adrenergic receptor regulation during hypoxia in intact cultured heart cells
J. D. Marsh and K. A. Sweeney H275

Measurement of osmotic reflection coefficient for small molecules in cat hindlimbs
M. B. Wolf and P. D. Watson H282

SPECIAL COMMUNICATIONS

Relative importance of four pressoregulatory mechanisms after 10% bleeding in rabbits
N. Katoh, D. D. Sheriff, C. O. Siu, and K. Sagawa H291

Distribution of perfusate flow during vasodilation in isolated guinea pig heart
M. W. Gorman, R. D. Wangler, and H. V. Sparks H297

MODELING METHODOLOGY FORUM

Errors in microsphere determination of cardiac output: a computer simulation in fetal sheep
I. D. Hope, F. J. Huikeshoven, R. D. Gilbert, G. G. Power, and L. D. Longo H302

RAPID COMMUNICATIONS

Subtype switching of ANP receptors during in vitro culture of vascular cells
K. Uchida, T. Mizuno, M. Shimonaka, N. Sugiura, H. Hagiwara, and S. Hirose H311

Hypoxic reperfusion attenuates postischemic microvascular injury
R. J. Korthuis, J. K. Smith, and D. L. Carden H315

ANNOUNCEMENTS

H320

No. 2. FEBRUARY 1989

Downregulation and desensitization of A_1-adenosine receptors in embryonic chicken heart
J. Shryock, A. Patel, L. Belardinelli, and J. Linden H321

Single cardiac sarcoplasmic reticulum Ca^{2+}-release channel: activation by caffeine
E. Rousseau and G. Meissner H328

α_1-Adrenergic control of contractility and coronary flow in the perfused rat heart
S. J. Edwards, S. Rattigan, E. Q. Colquhoun, S. C. Lockwood, E. A. Woodcock, and M. G. Clark H334

Influence of neutrophil depletion on myocardial function and flow after reversible ischemia
P. G. O'Neill, M. L. Charlat, L. H. Michael, R. Roberts, and R. Bolli H341

Contractile function of heterogeneously perfused myocardium in conscious dogs
M. Nagata and M. Lavallee H352

Effects of steps in cardiac output and arterial pressure in awake dogs with AV block
D. S. O'Leary, A. M. Scher, and J. E. Bassett H361

Depression of heart sarcolemmal Ca^{2+}-pump activity of oxygen free radicals
M. Kaneko, R. E. Beamish, and N. S. Dhalla H368

Anatomical determinants of O_2 flux density at coronary capillaries
C. R. Honig, J. L. Frierson, and T. E. J. Gayeski H375

Redistribution of coronary microvascular resistance produced by dipyridamole
W. M. Chilian, S. M. Layne, E. C. Klausner, C. L. Eastham, and M. L. Marcus H383

Effects of tissue geometry on initiation of a cardiac action potential
R. W. Joyner, B. M. Ramza, R. C. Tan, J. Matsuda, and T. T. Do H391

Tissue-type plasminogen activator release in response to epinephrine in perfused rat hindlegs
G. J. Zhu, M. Abbadini, M. B. Donati, and L. Mussoni H404

Activation of renal sympathetic outflow by intracisternal hypertonic NaCl in dogs
I. Abe, D. B. Averill, and C. M. Ferrario H411

Uneven blunting of chronotropic baroreflexes in obese Zucker rats
D. L. Barringer and R. D. Buñag H417

Effects of lidocaine on sarcolemmal fluidity and cellular cAMP in rat cardiomyocytes
S. Roux, B. Escoubet, G. Friedlander, C. Le Grimellec, I. Bertrand, and C. Amiel H422

Vagal stimulation decreases rate of left ventricular relaxation
R. J. Henning, J. Cheng, and M. N. Levy H428

Effect of sinoaortic denervation on arousal responses to hypotension in newborn lambs
R. S. C. Horne, P. J. Berger, G. Bowes, and A. M. Walker H434

Pressure-flow characteristics of coronary collaterals in dogs
K. W. Scheel, H. Mass, and S. E. Williams H441

Aberrant baroreceptor mechanotransduction in adult Dahl rats on low-salt diet
M. C. Andresen, S. K. Rudis, and D. E. Bee H446

Pertussis toxin effects on transmitter release from perivascular nerve terminals
M. Nozaki and N. Sperelakis H455

Cervical sympathectomy and cerebral microvascular and blood flow responses to hypocapnic hypoxia
I. Kissen and H. R. Weiss H460

Lipoxins A_4 and B_4 dilate cerebral arterioles of newborn pigs
D. W. Busija, W. Armstead, C. W. Leffler, and R. Mirro H468

Optimal hematocrit for canine gastric oxygenation
J. W. Kiel and A. P. Shepherd H472

Progressive change in collateral blood flow after coronary occlusion in conscious dogs
Y-T Shen, D. R. Knight, D. R. Canfield, S. F. Vatner, and J. X. Thomas, Jr. H478

Vasopressin contributes to maintenance of arterial blood pressure in dehydrated baboons
K. L. Ryan, R. M. Thornton, and D. W. Proppe H486

Mechanics and composition of arterioles in brain stem and cerebrum
G. L. Baumbach, J. E. Siems, F. M. Faraci, and D. D. Heistad H493

Vascular capacitance and reversal of 2-kidney, 1-clip hypertension in rats
M. E. Edmunds, G. I. Russell, and J. D. Swales H502

Canine myocardial creatine kinase isoenzyme response to coronary artery occlusion
S. W. Sharkey, K. J. Elsperger, M. Murakami, and F. S. Apple H508

Erythrocytes reduce liquid filtration in injured dog lungs
M. Onizuka, T. Tanita, and N. C. Staub H515

Mathematical model of dependence of heart rate on tissue concentration of acetylcholine
F. Dexter, G. M. Saidel, M. N. Levy, and Y. Rudy H520

Effect of hemoglobin concentration on critical cardiac output and oxygen transport
F. Heusser, J. T. Fahey, and G. Lister H527

Attenuated response to atrial natriuretic peptide in rats with myocardial infarction
M. Kohzuki, G. P. Hodsman, and C. I. Johnston H533

Stiffness and shortening changes in myofilament-extracted rat cardiac myocytes
K. P. Roos and A. J. Brady H539

Two structural states of Z-bands in cardiac muscle
M. A. Goldstein, L. H. Michael, J. P. Schroeter, and R. L. Sass H522

Effects of ATP precursors on ATP and free ADP content and functional recovery of postischemic hearts
G. Ambrosio, W. E. Jacobus, M. C. Mitchell, M. R. Litt, and L. C. Becker H560

SPECIAL COMMUNICATIONS

Direct diastolic ventricular interaction gain measured with sudden hemodynamic transients
B. K. Slinker, Y. Goto, and M. M. LeWinter H567

X-ray microanalysis of single cardiac myocytes frozen under voltage-clamp conditions
M. F. Wendt-Gallitelli and G. Isenberg H574

RAPID COMMUNICATIONS

Erythrocytes decrease myocardial hydrogen peroxide levels and reperfusion injury
J. M. Brown, M. A. Grosso, L. S. Terada, C. J. Beehler, K. M. Toth, G. J. Whitman, A. H. Harken, and J. E. Repine H584

Polyethylene glycol-conjugated superoxide dismutase and catalase reduce ischemic brain injury
T. H. Liu, J. S. Beckman, B. A. Freeman, E. L. Hogan, and C. Y. Hsu H589

Dimethylsulfoxide prevents chemoattractant-induced leukocyte adherence
E. Sekizuka, J. N. Benoit, M. B. Grisham, and D. N. Granger H594

Analysis of regional responses to endothelin in hindquarters vascular bed of cats
R. K. Minkes, L. A. MacMillan, J. A. Bellan, M. D. Kerstein, D. B. McNamara, and P. J. Kadowitz H598

No. 3. MARCH 1989

Effect of inosine on pial arterioles: potentiation of adenosine-induced vasodilation
A. C. Ngai, M. R. Monsen, S. Ibayashi, K. R. Ko, and H. R. Winn H603

Adrenergic control of intrarenal arteries of rabbits
M. P. Owen, M. C. Taphorn, and J. G. Walmsley H607

Responses to acute hypoxemia in fetal sheep at 0.6–0.7 gestation
H. S. Iwamoto, T. Kaufman, L. C. Keil, and A. M. Rudolph H613

Impairment of endothelium-dependent dilatation of cerebral arterioles during diabetes mellitus
W. G. Mayhan H621

Dopamine stimulates cAMP production in canine afferent arterioles via DA_1 receptors
T. Tamaki, C. E. Hura, and R. T. Kunau, Jr. H626

Length-tension relationship of vascular smooth muscle in single arterioles
M. J. Davis and R. W. Gore H630

Effects of arginine vasopressin on hemodynamics and lung fluid balance in lambs
A. L. Gest, A. A. Moise, T. N. Hansen, and S. Kaplan H641

Pericardial pressure attenuates release of atriopeptin in volume-expanded dogs
J. A. Stone, P. R. H. Wilkes, P. M. Keane, E. R. Smith, and J. V. Tyberg H648

Contractile properties of isolated vascular smooth muscle after photoradiation
W. Freas, J. L. Hart, D. Golightly, H. McClure, and S. M. Muldoon H655

Inhibition by arachidonate of cerebral arteriolar dilation from acetylcholine
H. A. Kontos, E. P. Wei, J. T. Povlishock, R. C. Kukreja, and M. L. Hess H665

Effect of myocardial ischemia on hemodynamic response to carotid occlusion
G. E. Billman and D. H. Marsh H672

Deleterious effect of ouabain on myocardial function during hypoxia
M. J. Cunningham, C. S. Apstein, E. O. Weinberg, and B. H. Lorell H681

Cardiorespiratory effects of DL-homocysteic acid in caudal ventrolateral medulla

Chronic whole body sympathectomy fails to protect ischemic rabbit hearts
T. Matsuki, M. V. Cohen, G. Holt, J. Ayling, D. J. Hearse, and J. M. Downey H1322

Right ventricular performance after monocrotaline-induced pulmonary hypertension
P. M. Werchan, W. R. Summer, A. M. Gerdes, and K. H. McDonough H1328

Effects of hypoxia on atrioventricular node of adult and neonatal rabbit hearts
M.-L. Young, R. C. Tan, B. M. Ramza, and R. W. Joyner H1337

Reperfusion arrhythmias: dose-related protection by anti-free radical interventions
M. Bernier, A. S. Manning, and D. J. Hearse H1344

Diabetes alters postischemic response to a prostacyclin mimetic
G. M. Pieper and G. J. Gross H1353

Two types of calcium channels in isolated smooth muscle cells from rat tail artery
R. Wang, E. Karpinski, and P. K. T. Pang H1361

Central oxytocin systems may mediate a cardiovascular response to acute stress in rats
M. F. Callahan, R. F. Kirby, J. T. Cunningham, S. L. Eskridge-Sloop, A. K. Johnson, R. McCarty, and K. A. Gruber H1369

Differential effects of sleep stage on coronary hemodynamic function
D. A. Kirby and R. L. Verrier H1378

Pentobarbital anesthesia alters pulmonary vascular response to neural antagonists
D. P. Nyhan, H. M. Goll, B. B. Chen, D. M. Fehr, P. W. Clougherty, and P. A. Murray H1384

Hemodynamic effects of chronic infusion of rANP in renal hypertensive rats
F. J. Fenoy, T. Quesada, M. García-Salom, J. C. Romero, and F. J. Salazar H1393

Age-related central and baroreceptor impairment in female Sprague-Dawley rats
S. Tanabe and R. D. Buñag H1399

Acetylcholine increases intracellular sodium activity in sheep cardiac Purkinje fibers
G. Iacono and M. Vassalle H1407

Influence of site of regional ischemia on nonischemic thickening in anesthetized dogs
P. N. Marino, D. A. Kass, L. C. Becker, J. A. C. Lima, and J. L. Weiss H1417

Effect of salt deprivation on blood pressure in rats
C. E. Ott, W. J. Welch, J. N. Lorenz, S. A. Whitescarver, and T. A. Kotchen H1426

Frog ventricle: participation of SR in excitation-contraction coupling
M. E. Anderson, I. J. Fox, C. R. Swayze, and S. K. Donaldson H1432

Effects of age on mechanical and structural properties of myocardium of Fischer 344 rats
P. Anversa, E. Puntillo, P. Nikitin, G. Olivetti, J. M. Capasso and E. H. Sonnenblick H1440

Outward currents in normal and hypertrophied feline ventricular myocytes
R. B. Kleiman and S. R. Houser H1450

Cumulative deterioration of myocardial function after repeated episodes of exericse-induced ischemia
D. C. Homans, D. D. Laxson, E. Sublett, P. Lindstrom, and R. J. Bache H1462

Role of iron in postischemic microvascular injury
J. K. Smith, D. L. Carden, M. B. Grisham, D. N. Granger, and R. J. Korthuis H1472

Characteristics of L- and T-type Ca^{2+} currents in canine cardiac Purkinje cells
Y. Hirano, H. A. Fozzard, and C. T. January H1478

Noninvasive determination of hemoglobin saturation in dogs by derivative near-infrared spectroscopy
M. Ferrari, D. A. Wilson, D. F. Hanley, J. F. Hartmann, M. C. Rogers, and R. J. Traystman H1493
